SUMMARY

I'm a Computer Science student and software developer passionate about building useful digital solutions. I work across frontend, backend, databases, and mobile development, with experience using technologies such as React, React Native, Expo, Node.js, Python, and SQL. I enjoy turning ideas into functional, user-friendly applications and continuously improving my skills through real-world projects.

PROJECTS

AttendX

Live

Class attendance for GCTU. Lecturers open a session, students scan a QR code on the web or the Expo mobile app, and the register fills itself in real time, with location checks, appeals, and exportable reports.

Stack: React, React Native, Expo, Node.js, Express.js, Sequelize, PostgreSQL, Socket.IO

UrbanPulse

Live

A full-stack storefront for a Ghanaian streetwear brand: a scroll-driven film hero, Paystack checkout in cedis, an installable PWA, and an admin dashboard for orders, stock, and content.

Stack: React, Vite, Tailwind CSS, Node.js, Express.js, PostgreSQL, Paystack
